

Animals in different habitats.

Freebie!

Habitat

a natural place an animal lives

arctic

desert

ocean

grassland

All animals need a habitat.
Animals may hide from us.

Sometimes we can tell animals are around because we see **clues**.

The **clue** might be **tracks**

Droppings

Leaves that have been eaten

Birds singing

Animal's home.

Questions p.14

Which animals might live in this habitat?

Birds, insects and bats.

Can you see any clues?

**Nests droppings, tracks, leaves have been •
eaten.**

Why do some animals hide from us?

They are scared, they think we might hurt them.

**Insects and other small animals need
a safe place to live close to food.**

Many small animals eat **twigs and dead leaves.**
